RAY'S PREMIUM PLOUGHS. tHE inventor of these ploughs in an experienced and skilful mechanic and having been ma ny years engaged in the manufacture of ploughs become lairsfied that an improvement might he made in them, commenced his experiments which have so happily resulted in producing to plough, which for durability, case of draft and good work, stands unsurpassed by the best ploughs;

in the country. These ploughe received the general approbation of the Penobscot Agricultural Society, and a premium at the Cattle Show and Fair in Septembe

The committee in their report, say, in speaking of the plough "so far as we are capable of judging it is equal if not better than any other we have seen, it is very neatly made and of good form for doing work well and with ease, and in our opinion, is so made as to be less liable, to break than any other kind in use "

The Bangor Mechanic Association by a committee of scientific gentlemen reported at considerable length in favor of these plaughs. The report states that the mode by which the general form of this plough is obtained, exinces much ingenuity and and is highly creditable to Col Ray, as a mechame, the committee congratulate the Association and the community open the improvements that are | Sketches of Public Characters and other new and the community open the improvements that are | Sketches of Public Characters and other new being made in aggricultural implements as an exit. But ks. Just rec'd by SMITH & FENNO, dence that the attention of scientific men is direct. | 113 dence that the attention of scientific men is direct. Editowayds that part of our national industry " And in cone uding their report, they say "your committee are happy to state that arrangements, have been made by which Col. Ray's ploughs are to be manufactured in this city, and inexamination-vour committee are of opinion that the matern als and workmanch pide credit to the manufactur ers and to the city, and believing those ploughs, so far as iney can judge, to be unsurpassed by any in use, they cannot doubt that their is troduction among the farmers of Penobscot will prove higaly benche al to the country." The subscribers have commenced in the manufac

BAAGOR WHIO: goriogy, wix 1, 10

A letter lately addressed by Thomas Benton to a gentleman in Missouri, through which lie is or has been making a political tour ; and the reply of President Van Buren to the incofo- State legislation, and fittle in now left to the co oration at Castle Garden, on the occasion of his lase proception, both carry, the idea that the and treasury is will to be considered the policy of the administration, and live he die, nick or swim, no other femedy for the inequality of the currency and the troubles in commercial affairs of the country, growing out of it, is to receive any favor or support. This must indeed be a comfortable reflection to the merchants in Row York, the manufacturers throughout New Eng. fand, and the laboring men the consumers, i. the Western and Southern States; because these are all seriously affected by a difference much as it will add 1.489 Kty to the number of in the rates of exchange. And this diff-rence is mainly owing to a want of a central and controling power in the monetary effairs of the

The following rates of exchange at New Oranleans we take from the Daily Times in Musesser Moxey

one.dis Natches 6 10 a 15 de 6 mas. Post Notes do 12 do 20 a 22 do River (specie paying banks) 5 a 6 do Union bank payable 1st Aug. 6 a 7 do de do 12 mus PostNotes 21 a 23 do Grand Gulf 20 a 2.5 do 30 a 35 do Lake Washington Com. & R. R. bank Vickshurg 30 a 35 do do do do Poet Notes 30 a 35 do Bank of Vicksburg 40 a 50 de Vicksburg Water Works 45 50 co Tumbigby Citizena Bank Madison Co 35 a 40 do Commercial Bank Columbus 10 a 15 do Brandon Bank Alabama specie paying banks State Bank 8 🛊 10 - 65 3 a 5 do Tennescre Ohio, Illimpia, Indiana, ? 2 a 4 Kentivky & M' nuri.

An examination of the rates of exchange at New York shows a similar difference. If the - laboring man in Mississippi works for three dol-Inte a day and takes his pay ... in money which is at par there, he must lose from five to forty five per cent in order to obtain New Orleans current money, and then from a half to one per -cent-in addition to Obtain a United States Cank -uele to k y a demand or make a purchase at the North. But if he wishes to purchase provisions or manufactured articles, he must pay this amount of extra profit to the merchant to enable him to ninke his payments in New Orleans or New York, - Now why this necessity for go great a difference, when we have tried a system that only required from a half to one per cent throughout the whole country? Ought this vast adifference to exist necessarily, as a part of a system merely to gratify the pleasure, or pride, or chatinacy of party?

A difference in the rates of exchange between different nations prises from two causes; & difference in the mint value of coins, and by a mudden increase or diminution of hills drawn in bel ones leading, as in Philadelphia, from the reciprocally due from the West and South That is, suppose the one to want twenty mil-Jions annually of the other, and that one in return to want-eighteen millions of products in return, there would only be a balance of two millions to be adjusted, and the whole difference in exchange ought not to exceed the cost of this adjustment. This we take it is an idea of what four large solutions in front. On the lower is meant by a well regulated currency, and with such a currency, the effect would be as we have stated it formerly was, varying from a half to one and a half per cent: In the case we have stready supposed, there is eighteen millions recierocally due to each, and the one will cancel. the other, and may as well to done by bills of exchange, notes or d.alte, as by the luggage back and forth of spenie better done im some such any, as the expense of transportation is avoir #. The odd change,or the amount the one owes the other, can be paid by bills drawn elsewhere, where the creditor may be the debtor, and the debtor the creditor, and thus all be paid measures one hundred and eleven teet by forty. by an exchange of -curities.

To do anay with this system, and substitute specie, would be to limit the amount of business, Fourth street. The first story on each street is not to the wants, wishes and convenience of the proping but to disregard these entirely, and rasser only by the precious metals: It would the public entry to the House. shrough this let a death blow to all so -- mercial enterprise and you ascend to the around story. of our Constitution lind with the just anpre ever helield, on neither hand can a hill be zeen;

Product That The action of our Government has been completely changed that the Rederal Executive is now looked to as the source and fountain of all official favor, and his recommendation in practice is obligatory upon his achierents, not only as respects Federal but supresentatives of the people, besides the duty of registering Executive edicts.

"Resolved. That all bills for the raising of revenue, ought to originate in the House o Representatives, and not with the Senate or niel Magistiale, and that the keeping and disbursement of the public money ought to be confided to officers appointed by Congress, and not to the commander in chief of the army of

the United States. "Resolved. That the favorite project of the age present Chief Magistrate, by which he proposes to take the public money into his own keeling, or that of persons appointed or removable at his pleasure, is justly calculated to alarm excry hours. It is well furnished from the manufactofriend of the supremacy of the people inas-OFFICEHOLDERS diminish the security of the public money afford the means and facilities or corruption and bribery render the Governmentioned dependent upon the people admit of West, and they should reap a rich reward. The without the authority of Congress - and; finally, as it will lay the foundation of a 'Freasu y bank that key stones in the otherwise finished arch

of unlimited Excutive power. "Resolved, As the sense of this convention, That the nomination for President and Vice President, of a majority of the delegates to be assembled at Harrisburg, in December next should be adhered to by all true whigh, as the only safe ground for successful efforts, at the next Presidential election; and that our own delegates ought to go unpledged to the convention (though their predilections be ever so strong His offerts to contribute to the comfort and case for the distinguished and native son of New Hampshire) in view of the paramount duty of compromising all personal preferences.

"Resolved. That such a change in the Feder al Constitution ought to be made, as will limit the holding of the office of President to a single

NO XXV. PORCLUDED

Quincy Illinois ... its tocation Streets public Court house Quincy house a description of it basiness of Quincy religious denomina Times population advantages and prospects Quincy, the seat of justice of Adiens County, Illinois, is situated on the Mississippi river, aiout two hundred miles by water, above St. Louis. It is located upon a bluff, one hundred and twenty five feet above the river, the summit of which is very level and finely adapted for a healthy and beautiful visiage. From the top of the bluff, the level extends for miles to the east, the north and the south, except an occasional ravine within the limits of the town, which may be easily filled in making the ordinary grade ... The town was laid out in 1825, but not brought into a arket till 1832, and includes the territory sefone square mile only. The township within which it is situated, is a fractional one. Whole townships, as in Maine, contain twenty three thousand and forty acres, or sixty miles square. This town is laid out with great regulerty all

of its streets being at right angles, the princione country upon another. But in our country water, and the smaller once the reverse. The terminates on the Mississippi at Quincy. The -the first of these causes does not operate at all, principal streets are being graded through the advantages of this road to this place are maniand the record ought only to be at the fair rate bluff to the landing, which is one of the best on fest from an inspection of the map. It must of adjusting the differences between the debts the Mississippi. At a short distance from the become a great depot for the surplus produce of citizens have an opportunity presented them of edge of the bluff, is the public square containing the North and the North to the South and West. four acres, occapying the space between two of There's one of the most important roads in Illi the principal streets. These streets and their nois. It is principally under contract and the parullels are called by the names of the States : those which intersect, Front, Bround, Third, Around this square are retail stores, a Court house and two Hotels. The Court house within the last three or four years and is still is a fine building of brick, with a cupola and Boor is a large room for the Commissioners' Court, and sinsiler ones occupied by the Judge of Probate, Sheriff and Clerks of the Courts. Above is a beautiful Court conti and lobbics .-This 100-n is much in the ame style as your Court work, though not so large. The edifice cost twenty two thousand dollars.

The principal Hotel there being laur or fire in all in the Quivey House, erested by the Meants. Tillsons, the last season and situated upon the south side of the square. This is a noble building of brick, and contains about one handred rooms. Its front upon the square fat, four stories in height, and one hundred and sixteen feet by thirty feet, same height, on designed for stores and contain seven, reserving rence. a convenient space in the principal front for is the office, to the right of you a spacious gentlemen's dining rown, twenty one feet by forty occupying the whole width of that part of the how ton Fourth street. Retreving your steps to the oilice, you will find the winding stairs continued from thence to the top of the building. On the third floor, are four parlors with eleeping rooms connected, and twenty three other eleeping rooms: On the fourth floor, are have leave to withdraw; accepted and sent down tion of their rooms are provided with fire places or aprite as for stove pipes. They ere also Alico Marden et als for sidewalk on Cumber-

our fathers laid down their lives with the spirit troof. Here you have one of the finest prospects

its eastern ride. North and south gon have a full view of the river for near ten miles. West of the Mississippi in Missouri, for about eight miles the bottom lands extend. To the north, east and south, in the opposite direction, is a beautiful, surpassingly benixtiful, undulating or rolling profile, interspersed with toak barrens, or groves, as they would be called at the East. This is covered with splendid farms, laid out with flie most accupulous regularity, and surrounded by the rail fence of a height of some six or seven feet. Much of the prairie is not under fence, and scrives as a common pastur-

You have now had a description of the Quincy house,' and its superior, the West cannot ries in Boston. The cost, including the furniture will not vary much from seventy five thousand dollars. Its enterprising proprietors have by this work, done much for Quincy and the West, and they should reap a rich reward. The was under the direction of Colonel Howard, formerly of your places and does great credit to his skill. The House was leased and opened about the first of November last by Mr. William Munroe, formerly of the Broomfield wiese in Boston. This gentleman there acquired a high reputation as a landford, and is well calculated, by his accommodating manner and unassuming deportment, to win the public favor of the West. of his guests are unremitting. May his success-be commensurate with his desire to please.

The retail stores, I have before stated, are about the square. At the landing are several ware houses occupied by commission and ferwarding merchants, and pork dealers. The purpose, the boiler, burst Mr William Spenimports for 1838 ammounted to about four hunred and twenty five thousand dollars the exports, principally of pork, to nearly as large an amount. The whole number of stores is about

There are here several land offices, one of them the government office, something like a dozer lawyers, nearly as many physicians and more than can live by their practice, a fair proportion of mechanics, two steam saw mills and a flour

There are six religious denominations, Episcopalians, Congregationolists, Methodists, Baptiste, German Lutherans and Roman Catholics All of these except the latter, have churches or places of worship.

A branch of the State Bank of Librois is loented here, and a request by the business portion of the community has been made for a branch of the Bink of Illinois. The request will probably be granted.

There are two of wspapers Athished in Quincy by the two principal political parties, the 'Quincy Whig' and the 'Quincy Argus.' This State is well supplied with partizan prints ..

The northern Cross Railroad from the eastern part of the State through Springfield, the seat of government after 1840, and Jackson ville

The population of Quincy leabout two thousand. This town has grown more than one hall rapidly increasing. It is comparatively healthy and annually improves in that respect. The inhabitants are principally from New England, As a whole, in feeling and principle, it is a more thoroughly-New England place than any I have seen in the West. With its enterprise, its advantages of mavigation, its situation in one of the best agricultural districts in Illinois, and its distance from any other place of present or lu- as a ready writer and eloquent speaker." ture importance, anincy is destined to become one of the most important points in the Male.

SCISSORS.

On the 4th of July inst. in New York a num ber of serious accidents occurred. One of the engines of the Harlem Rail Road ran off the trock near Union Park, when coming down with a train loaded with passengers. The engineer and fireman, assisted by some of the passengers, immediately set about placing the locomotive on the track, and while raising it for the cer, the engineer, was litterally blown to pieces. Another person, named George John son, a passenger, was also killed on the spot. Two others, Roderick Matheson and Philip W. Case, were dangerously injured, and seveeral more slightly burt. On the same day, while the steamer Sampson was going from Staten Island to the city, with upwards of 700 passengers on board, the promenade deck gave way, when about two miles from the island, and fell down upon those who were on the drck below. Two passengers were instantly killed, and several others were wounded. One of the persons killed was Mr. Joseph Chambers, a grocer in-the upper part of the city, and the other an elderly Scotch lady named Johnson, residing in Perry-street. A man fell overhoard from the Steamer Bolivar, and sunk before asassistance could reach him. A man had his hand blown off by the borating of a piatol. A boy had his hand seriously injured from the same cause, and it is supposed that amoutation will be necessary. There were 50 sail of American vessels in Georgetown, Prince Edward's Island, on the 22d ult., all full laden with herrings, from Magdalen Islands, and es timated to have on board 20,000 barrels.

DEATH OR THE PALE Hores. This celebrated painting by DUKLAP, is now open for exhibition at the Rev. Mr Pomroy's Church, and our imposing one of the best paintings by one of the most eminent artists of the age. It has been exhibited in most of the cities of our country and has commanded universal admiration. This is its first exhibition here and will remain but a

The Waldo Gazette, in speaking of the Celebration at Frankfort on the 4th, perfices the Oration delivered by John &. Sayward, Esq, of this city, as follows:

INDIAN PURGATIVE PILLS.

Or UNIVERSAL MEDICINE of the North American College of Health

This assertion may startle the reader and appear to him absurd and indiculous, yet nevertheless it is line. What is discuse? When properly considered it is only in effort of nature to expel from the body some, offending cause, We are so constituted that there is a constant tendency in a ture to expel or throw off whatsoater is injurious to health. This is do no by unine, stool, sweat, expectory.

These are the sewers of the body thro health. This is do in by urine, stool, sweat, expector tion, comit, &c. These are the sewers of the body thrown in the useless and decayed, matter is carried off, and the unite unequest and accayed matter is carried on and so long as they are kept open, so long will the body continue in health. But when from esting improper food or other cause the bowels become costice, or sudden transitions from heat to cost, the porce of the skin become subject, all that is important concerning it being given, and this is done, not only suithin the books usually employed, in after so as to embacic the simplicity of the work.

The subject of Book Keeping will be found to be treated in a most useful and practical manier, or if contains not only the proper specimens and cappinations but the scholar is required to form a book, and arrange in it transactions which are was been in a promise one single first time, the disorder cuttrely dispenses and placed—at—the bottom of swers in phrascology, wherehy much time and trouble parts to these which the rescapilar the interval of the work, the regular gradations by which it proceed's from the easy, and obvious parts to these which have more difficult, combined with the general adapting the propers of Self Intraction.

The subject of Book Keeping will be found to be treated in a most useful at a proper specimens and cappinations but the scholar is required to form a book, and arrange in it transactions which are was book, and arrange in it transactions which are was book, and arrange in it transactions which are was about a proper specimens and cappinations but the scholar is required to form as book, and arrange in it transactions which are was a cappinations but the scholar is required to form as a portific to the second of the compound from the second of the compound from the cappinations of the second of the compound from the compliant. I have reason to closely on the disorder cuttrely dispard to the compound from the second of the compound from the compliant. I have reason to close the compound from the second of the compound from the compound of the second of the compound from the compound of the strength from the compound from the second of the compound from the second of the compound from the compound f closed, or any of the other drains become metric [st], etc. consequences are sure to follow. The foul matter which should except by these outlets instead of passing off as

the howels from which the most period by the purgative quality of the Pulls. And under every circumstance, if properly persevered with, it is impossible but that every disease must yield to their powerful induces.

Thus briefly have we endeavored to addess oursely as to the understanding of the resider to show to him in as condensed and courlesses a manner as possible the grounds and feasible may be that Paragraphical Court for the continuers. It was for the INDIAN PURGATIVE PILLS

One other fact we would particularly stamp upon the memory of the reader. It is universally known and acmemory of the reader. It is universally known and acknowledged that the Indians are the most skillful in the cure of discases, of any people to the world, and common sense teaches us that herbs which spring spontaneously from our nature soil, if propotly combined and applied, are the best adapted to our Constitutions. I herefore when (complet with the above) we assure the reader that the INDIAN PURGATIVE PILITS are sumply a compound of four simple herbs now in priversal use by the North American Indians, and we trust he is convinced of their superior qualities and therefore competent to the cure of every curable Absence.

every cutable discass.
